

VICTORY CANOLA PROGRAM

V25-3T HYBRID CANOLA

THE EARLIEST HYBRID
IN THE VICTORY LINEUP

MORE WAYS TO WIN

The **Victory Canola Program** continues to offer higher returns, peace of mind with our risk-free hedge, and a supply chain that proudly brings healthy oils to consumers. There are always More Ways to Win with VICTORY Hybrid Canola.

V25-3T PROFILE

TYPE:	TruFlex® Canola
STANDABILITY:	Excellent
BLACKLEG:	R-rated, polygenic blackleg resistance
BL LABEL:	BCE1
BL GENES:	Rlm2, Rlm3, Rlm4, QTL
CLUBROOT:	Resistant ¹
GROWING ZONE:	All zones
PLANT HEIGHT:	Medium
FUSARIUM WILT:	R
MATURITY:	Earliest in portfolio
SWATH TIMING:	Swath at Canola Council's recommended swath timing*

*We do not recommend leaving any current VICTORY Hybrid Canola variety standing until fully ripe, and we do not support straight cutting any current VICTORY hybrids.

Improved yield potential – on average, yielded 104% of 45H33 and L233P²

Equipped with the **TruFlex®** canola trait, providing flexibility for your growing conditions, enabling a broader pesticide application window and application rate than the Roundup Ready® canola system

Industry-leading, season-long **polygenic blackleg resistance** package (including the Rlm2 gene) allowing you to protect your yields and your profits

Clubroot resistant¹ – safeguarding your production and giving you greater peace of mind

OUTPERFORMING LEADING COMMODITY CHECKS

VICTORY V25-3T returned on average more than **\$38.43** per acre vs. commodity checks.

VICTORY CANOLA PROGRAM

THE RIGHT FIT FOR YOUR FARM

5 STEPS TO HIGHER RETURNS

1. PICK YOUR VARIETY AND DELIVERY PERIOD

Choose your hybrids and herbicide system to get the agronomic benefits you prefer. Then, pick a delivery period, each with a valuable premium.

2. GROW YOUR CROP

Grow a winning crop of VICTORY hybrid or InVigor® Health canola. Our fixed tonnage is set at 35 bushels/acre. Keep your eyes on the market – we offer a risk-free* price hedge and no-fee Futures First contract to our Victory Canola Program producers. Cargill's experts will also be here to support you throughout the season.

3. SEND IN YOUR HARVEST SAMPLE

Submit a harvest sample from each of your Victory Canola Program bins with your declaration of the entire quantity of seed harvested (including shipped and in storage) from contracted acres. We'll test your grain to ensure it meets our oil customers' quality standards.

4. RECEIVE ON-FARM PICKUP OF YOUR CANOLA FROM CARGILL

When your delivery period approaches, one of our select carriers will contact you to schedule the pickup. Our Full Load Last Load will help simplify your planning, helping you get more grain out the door at the end of the day.

5. CASH YOUR PREMIUM CHEQUE

Our premium price will contribute to your bottom line, and the high-oleic canola oil you grew will contribute to the health of consumers around the world.

Sign up early to earn **additional premium** and a **program seed rebate** – check with your representative to see if you qualify.

*Contract terms apply.

¹VICTORY V25-3T was developed to be resistant to the predominant clubroot pathotypes (2F, 3H, 5I, 6M, 8N) identified in Western Canada at the time of registration. However, in a commercial field, there is potential for clubroot populations to exist or develop pathotypes to which V25-3T (and other clubroot resistant canola varieties) may be susceptible. Please follow integrated pest-management strategies to maximize the durability of genetic resistance in canola varieties. Learn more at www.clubroot.ca

² Co-op checks L233P and 45H33 (Based on mid-season zone production)

³ Average of 2 competitor varieties (DKTF 98 CR and 45CM39) across 14 trial sites were used to calculate the average yield and gross return. VICTORY Performance Trials are calculated based on a commodity canola price of \$17.35/bu and a VICTORY canola price of \$19.16/bu. Individual results may vary.
